

BOC Series 5000 PortaPak Regulators

Providing equipment solutions for our customers

The BOC two-gauge single-stage PortaPak regulators are designed to be used with the portable BOC WeldingPak and BOC PortaPak outfits in light-duty, general-purpose non-continuous welding, cutting and heating applications up to 2-bar oxygen working pressure. They are compact, rugged and portable; ideal for mobile operations. Their flow characteristics and compact design make them ideally suited to jobs on the move where space is a constraint – including plumbers, engineering contractors and HVAC engineers.
