

BOC Long Cutting Torch

Providing equipment solutions for our customers

The BOC cutting torch is a versatile, well-balanced torch capable of cutting steel up to 300mm thick. The cutters provide excellent flame control and exceptional handling for all industrial cutting applications. BOC cutting torches feature nozzle mixing technology for added safety and for protecting the torch and operator from accidental backfires. They can be used with acetylene or propane, depending on the type of nozzle fitted.

The long cutting torch is 27" (700mm) long and ideal for cutting applications where better heat protection is required, or for added operator comfort where a longer torch reach is preferred.

Five-year Conditional Warranty

Part number	41588
Conformation	Length 27" (700mm) 75 degree angle head
Compatible with	BOC ANM cutting nozzles BOC PNM cutting nozzles BOC hoses
Retail Price (inc VAT)	£154.32 (£131.34 ex vat)
